

Lynn Canyon & Seymour River Loop – Dec 5, 2021- Rimka Laman

Nine members and one guest met at Burnaby City Hall for this hike. Everyone was pleased to finally have a dry although cool day after all the heavy rain we have had in the last month or so. Of course, loads of water in the fast-flowing creeks and river. And not too many people on the trails. Yeah! No one else was even on the Lynn Canyon suspension bridge so that we could walk over it at our leisure. We went up and down all kind of staircases and walked over many wooden boardwalks. Snack break & lunch was at little beaches along Lynn Creek and Seymour River. We also went over the newish Seymour suspension bridge which replaced the Blue Bridge what was destroyed a few years ago. All in all, we crossed Lynn Creek twice and Seymour River twice using two pipe bridges and two suspension bridges. A very pleasant day!

Thanks to Barbara, Su-Jane and Gerard for driving!
