

Caulfeild Trail & Lighthouse Park: October 15, 2022

Starting east of the park at little-known Stearman Beach, we made our way via rocky footpaths, secret bays and scenic viewpoints to Pilot House Park.

Next the group passed by multi-million-dollar mansions and Caulfeild Cove, then proceeded into Lighthouse Park and down Valley of the Giants Trail. Here, numerous old growth fir and cedars dominated the landscape. At Point Atkinson, we learned that a lightstation has been in operation since 1874.

On the Howe Sound side, we visited Shore Pine Point where waves crashed against huge boulders, and everyone enjoyed terrific views of Bowen Island and beyond.

This was another very warm October day, even at the ocean's edge. Thanks to drivers, Diana and Rebecca. What a wonderful local excursion!
