

Black Mountain – March 8, 2020

Rimka Laman

It was very foggy when the six of us left Burnaby City Hall. But by the time we crossed Second Narrow Bridge we were in the sunshine. And it stayed that way the whole day. And what a glorious day it was! A bit of fresh snow on the trails, beautiful views of snow covered trees and mountains. Ahhh! It was a bit of a climb going up but when we got to the highest top of Black Mountain we thought it was well worthwhile. The views were amazing! And we were the only one here as the poled trail led to the other peak. We stopped there as well, had a few snacks or lunch and fed the Whiskey Jacks. We finished the loop and went back down the mountain, passed the throngs of people waiting for the chair lift, and back to where we parked the cars.

Great day, great company! Thanks to YuanYuan and Gerard for driving!
