

Subject: Campbell Valley Regional Park: January 22, 2023

This park in south Langley offers a variety of well-marked trails, including an 11.5 km loop aptly called "Shaggy Mane".

Horses and riders were present, but the paths were otherwise uncrowded.

A group of towhees (robin-like birds) watched our group pass very close to them, completely unconcerned about our presence

We had lunch near historic farm buildings before completing our three-hour tour on this pleasant January day.
