11:36 AM (2 hours ago)

to me

Departing from Cameron Recreation Centre, the group walked up Stoney Creek and Powerline Trails to the high point east of the SFU campus.

After descending steeply on the TransCanada Trail, we crossed Barnet Highway and followed the TCT above the shoreline, with inlet and mountain views.

We also passed by the docks where large freighters waited to be loaded with bright yellow sulphur, then continued into the town of Port Moody.

Here the group finished this walk at scenic Rocky Point Park, with the return journey completed via Skytrain or bus.
