to me, Jim

Eight members attended this South Langley trip and completed a 14.5 kilometer walk, involving two separate loop paths. The first was Little River Trail covering a section of the Little Campbell River, which has marshy areas, boardwalks, bridges and many trees with fall colours on display. A bonus was visiting the site of the former Langley Speedway where car races took place from 1965 to 1984. Next was Shaggy Mane Trail and a part of the Perimeter trail, where the group did encounter several horses on this longer route. After lunch we went to the historic Lochiel Schoolhouse, built in 1924, and returned to the parking lot.

Despite a forecast of rain, only a few drops fell. It was a great day !

Thanks to Catherine for driving, and to Yoko for her fine photos.

Jim McCavour
