

Buntzen Lake hike, July 5, 2021.

There were six members on this beautiful and easy Buntzen Lake hike. It was perfect weather for this hike: sunny, low 20s with a little bit of breeze to cool us down. We met at 9am from the Buntzen Lake parking lot. Within few minutes upon arrival, the first parking lot already filled up.

We started our hike anti-clock direction. Both directions are now allowed with relaxing of COVID restriction. We reached and enjoyed our water break on North beach at 10:30am. We took our time to complete this hike around Buntzen lake. At 1:30 pm, we arrived at parking lot and felt content. Life is good. Thanks for Gerard for co-leading the hike and pictures.
