

Tynehead Regional Park, Surrey Lake & Fleetwood Park -- August 14, 2022

All these parks are in north Surrey, just a short drive from Burnaby. We began in Tynehead where the Serpentine River flows south towards Boundary Bay.

Fortunately, there was plenty of shade provided by hawthorn archways, plus a bonus snack of ripe juicy blackberries. After a six km walk, we drove to Surrey Lake, which was created in 2002 to ease periodic flooding and is home to a number of bird species. Nearby trails lead to Fleetwood Park where our group had lunch, entered the refreshing water spray area, and followed a circuitous path in and out of the "Labyrinth". A great way to spend a very hot summer's day.
