

The Seymour River/ Lynn Canyon Loop
Saturday, June 4, 2022 - Laura Chau

On this Saturday, we had ten hikers on this outing event. Nine of us met at Burnaby City Hall for carpool together, one met at the trailhead area. When we left Burnaby, the weather was partly cloudy. Once we all arrived at the trailhead area, we made a brief introducing ourselves to each other. Then we started our hike on the Baden Powell Trail to Lynn Creek. We came across the Pipe Bridge, Twin Falls Bridge, Rice Lake and Lynn Canyon Suspension Bridge. As we continued our journey, we climbed almost 2000 stairs. We took a short break at Lynn Canyon Suspension Bridge area. We were so lucky, the sun came out and brighten up the trails. One of hiker knew about a secret place for us to have lunch close to the river. We really enjoyed seeing the current of the River. After we finished our lunch, we continued to hike back to our cars. We crossed the New Bridge onto the Fisherman Trail to finish our hike. The total of this trip were 4 hours with 12.77km.

We all had a great hike on a beautiful day.
