

Trip Report for Tynehead-Green Timbers Parks, Surrey, Aug. 9

Barbara Waldern

8:06 AM (12 hours ago)

to me

We decided to defy BOC tradition and met in the afternoon. It was an ideal day with early fall colours--warm and clear, but not hot or humid. We two members took a guest into Tynehead Regional Park first via 100 Avenue. There, we explored the restricted gravel paths on the forested west side before surveilling the wide open, paved paths on east side. Our chosen break site was the picnic area beside the hatchery. We then proceeded along 96 avenue to reach Green Timbers Regional Park. We preferred this park with its cool and winding shared paths through the woods. Finally, after exploring the north section, we lingered at the small lake in the main section, where a few families had gathered to fish and play while the geese and Wigeon ducks ate and swam about. It was a very relaxing time and we wished the day were longer.
