

## **Norvan Falls hike, Lynn Headwaters**

April 12<sup>th</sup>, 2025 – Gerard Laman

We started our hike to Norvan Falls on this very sunny Saturday morning with twelve ladies and one man. We hiked first along the Lynn Loop Trail to the Third Debris Chute. We stopped there for a short break and continued then our hike via the Headwaters Trail to the Norvan Falls. This section of the hike has several tricky small creeks crossing but we managed these well. At the waterfall we stopped for lunch and admired the volume of water that came down. After lunch we returned via the same trails and completed our hike in about 5 ½ hours.

We were very happy that we had very good weather on this great but, sometimes challenging hike.

Thanks for the drivers Monisha, Yoko and Gerard
